We are specialized in offering precision engineered [inconel](#), which are used in various engineering applications and can be availed in various grades like [600](#), [601](#), [617](#), [622](#), [625](#), [690](#), [718](#), [X-750](#), [800](#), [825](#) these grades are available in the form of [inconel pipe](#)

What is Inconel 800 Pipe ?

[Incoloy 800](#), [800H](#), and [800HT](#) are nickel-iron-chromium alloys with good strength and excellent resistance to oxidation and carburization in high-temperature exposure. These nickel steel alloys are identical except for the higher level of carbon in alloy 800H, and the addition of up to 1.20 percent aluminum and titanium in alloy 800HT. Incoloy 800 was the first of these alloys and it was slightly modified into [Incoloy 800H](#). This modification was to control carbon (.05-.10%) and grain size to optimize stress rupture properties.

[Jignesh Steel](#) is a renowned manufacturer in India and oldest supplier of [inconel pipe](#) Specialty pipe like [inconel 800 pipe](#) are what make us stand out from the crowd. We are the only company in INDIA with over **200 tons stock** of **inconel pipe**. We have pipe in ready stock upto **upto 1/4" to 48"** in various shape. We at [Jignesh Steel](#), we maintain various sizes in stock of [inconel 800 pipe](#)
